

Everything is  
always working out

I am the Universe  
in motion

I am the Creator  
of my experience

My body is created  
to self heal

it is  
already done

i am tuned in,  
tapped in,  
turned on

anything  
is possible

i am capable  
of taking care of  
myself

i am a magnet to  
all that i desire
